Subject: RE: Two Updates: Oxitec EUP and PIPs Rule - Internal Deliberative

Steps that need to be completed for Oxitec EUP

- 3 Human Health DERs (bioinformatics, and product characterization, arbovirus resubmission)
- Review of response to latest 75 day letter especially the arbovirus testing information
- Draft Risk Assessment (70% is completed)
- Review of revised section G/experimental program
- Draft response to comment (includes OGC review) (60% completed, has not been sent for OGC review)
- Issuance letter (includes management review)
- Finalize CSF, section G

- We are working on a description of what's left to do on Oxitec and will have to you before 9:30 am.
- Regarding a realistic PIRA date, April 30th remains our best estimate, but this could slip with all the back and forth on the rule.
- If we temporarily stop working on the rule, an April 23rd decision is reachable.
- Regarding the rule, for us to add a voluntary option will take an 1 additional month.
- For a voluntary option, the scope will be significantly more limited than the mandatory process due to food safety issues and we will need to further communicate with FDA.
- On the USTR issues, I have been in contact with Karissa and Ashley in Alex's office and Eric and I are working on their rebuttal of USTR's points.

Internal and Deliberative
Not for Public Release

A couple of updates, based upon a call that I just had with Alex.

Ex. 5 Deliberative Process (DP)
